**COP26**

IN PARTNERSHIP WITH ITALY

A passion for justice, a desire for peace and a concern for the integrity of God's creation are all essential to the living out of the Gospel. They are not optional extras, but core components of Christian faith.

Welcome to Harvest Time 2021. Yet, this is a summer which has taught us not to take the fruitfulness of Planet Earth for granted. Climate change has affected growing seasons and fruits are ripening outside their usual month. Internationally – including Europe - droughts, wildfires and catastrophic floods have devastated communities. The 9 August report of the UN's Intergovernmental Panel on Climate Change confirmed that we are seeing "more intense and more frequent" weather extremes. We are close to 1.5C of warming which could disrupt food production worldwide, and it was a threshold identified in the 2015 UN Paris Agreement.

God loves this Earth, and so should we. Please take action for the love of God's creation.
